

'Print & Play' Trigonal Chess

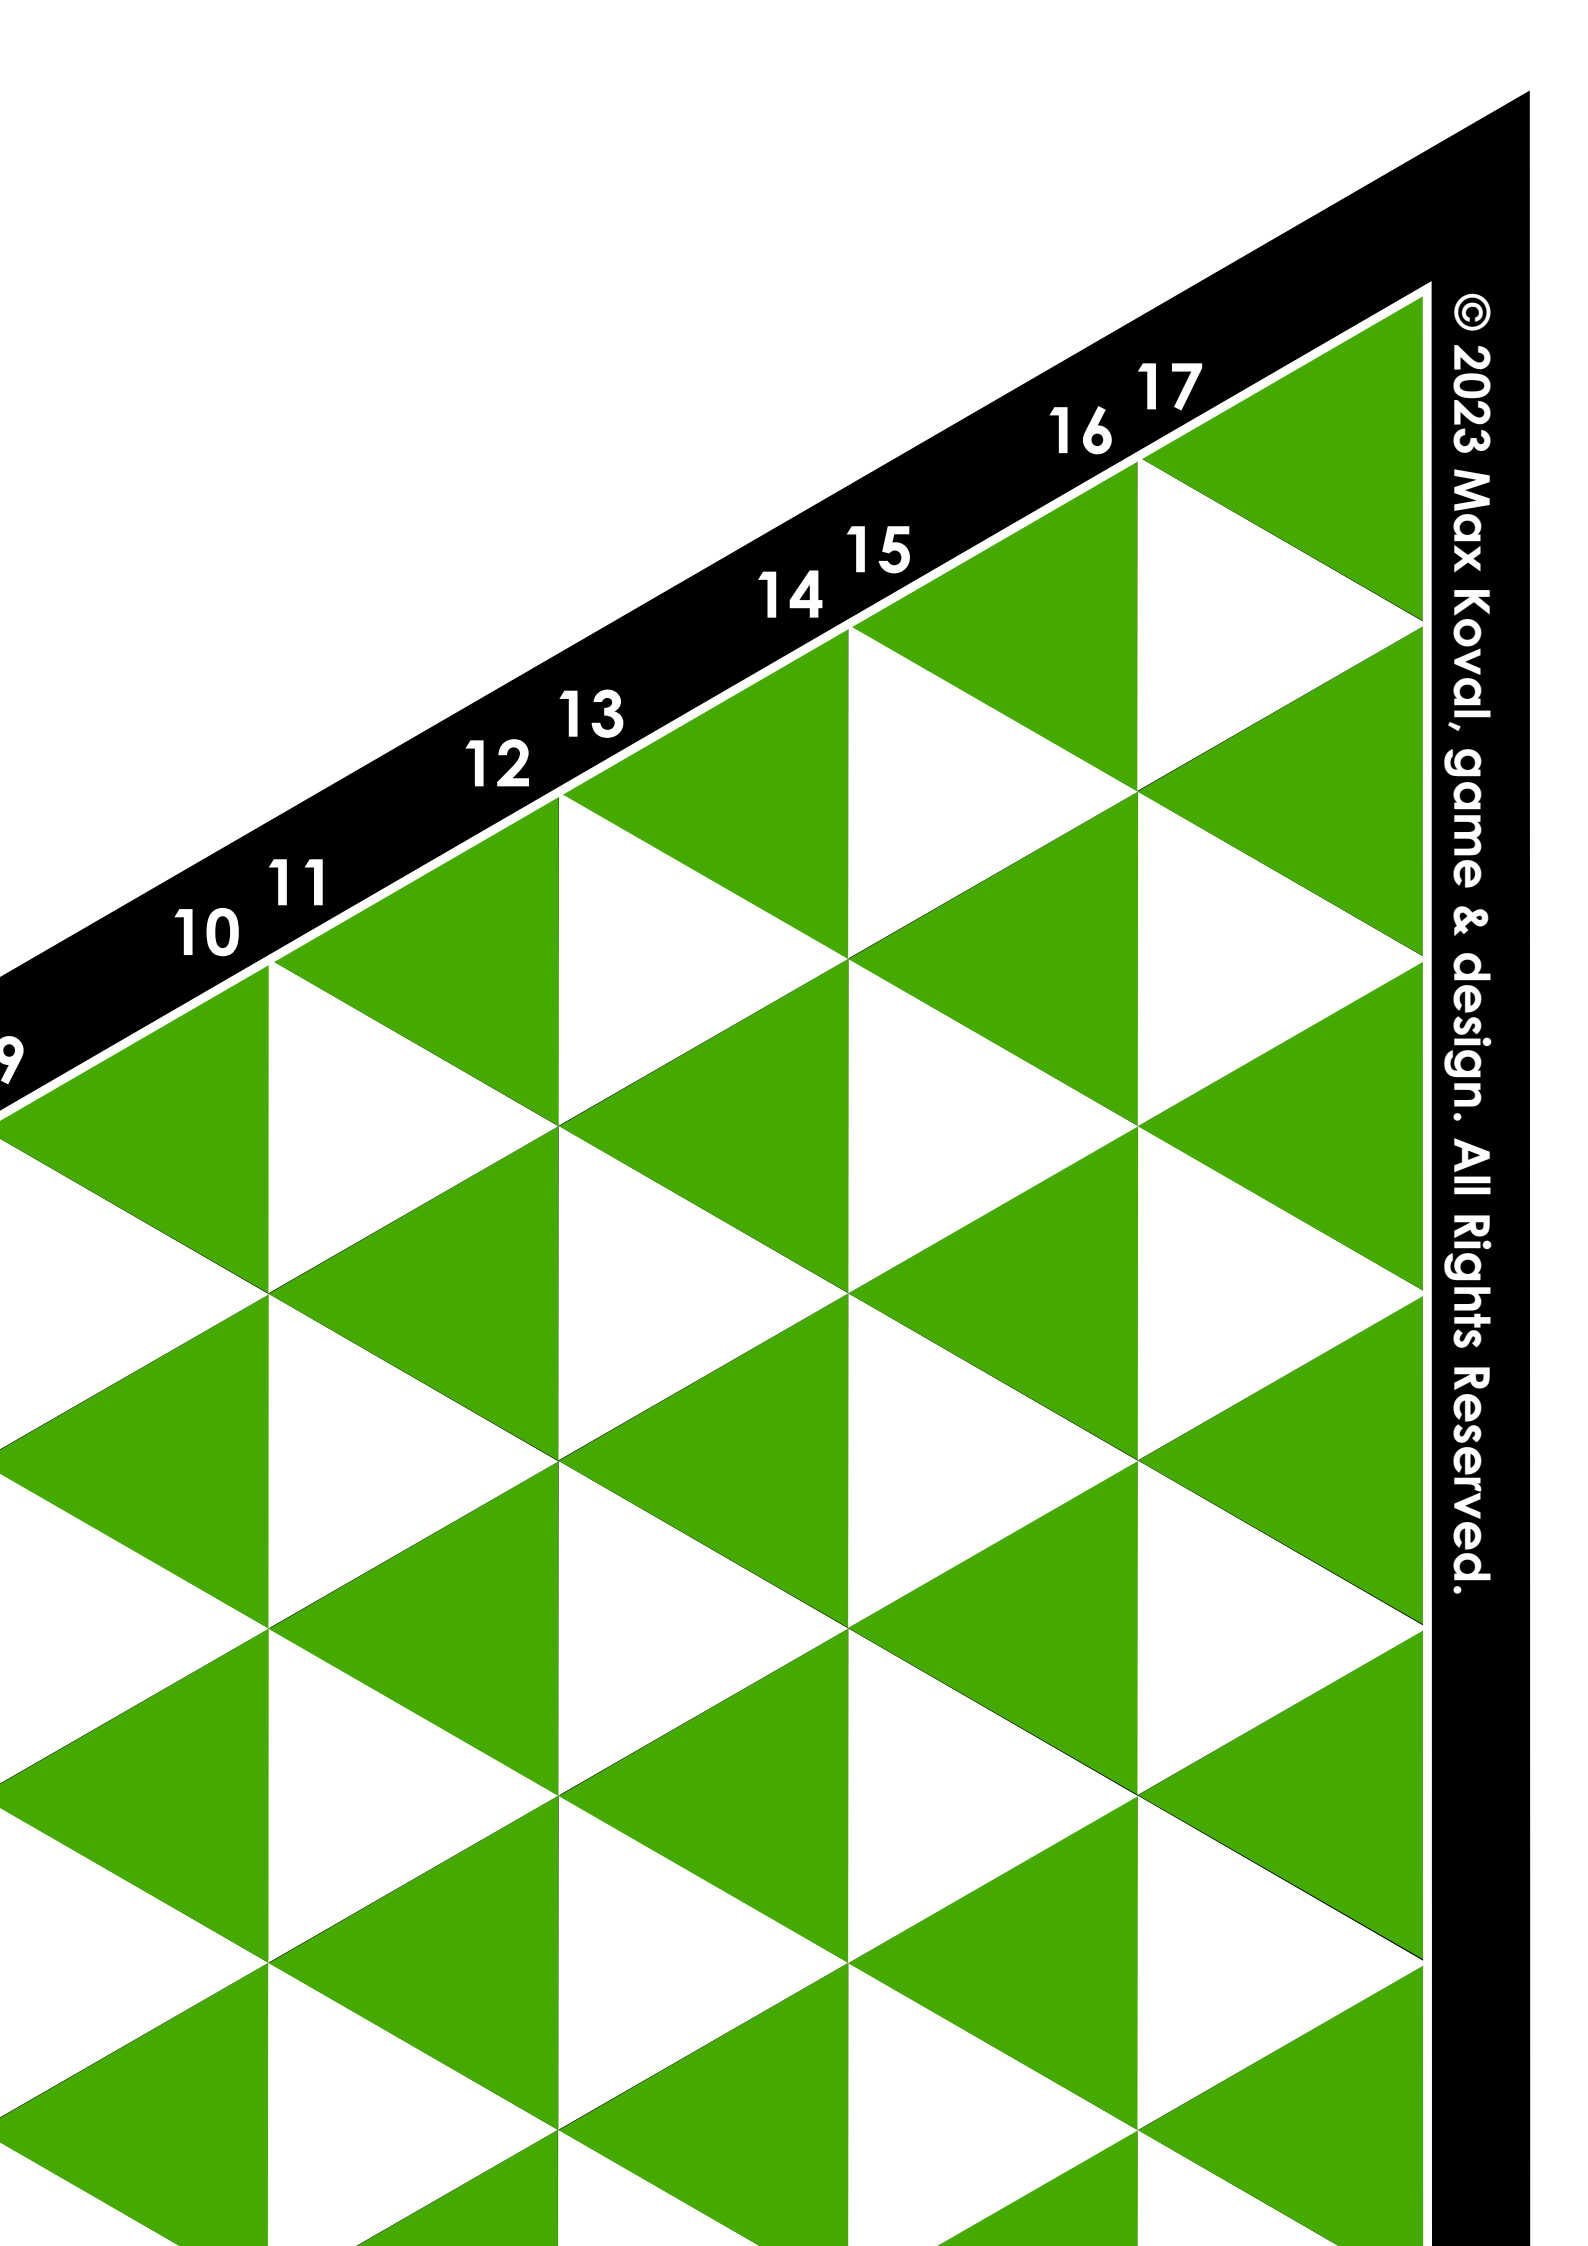

Trigonal Chess is a recent member in a family of similar chess variants played on triangular fields. The new board orientation and simple rules make the suggested game a perfect choice for a fun play with your friends, and open new dimensions of unexplored spaces.

The rules are available on the Internet.

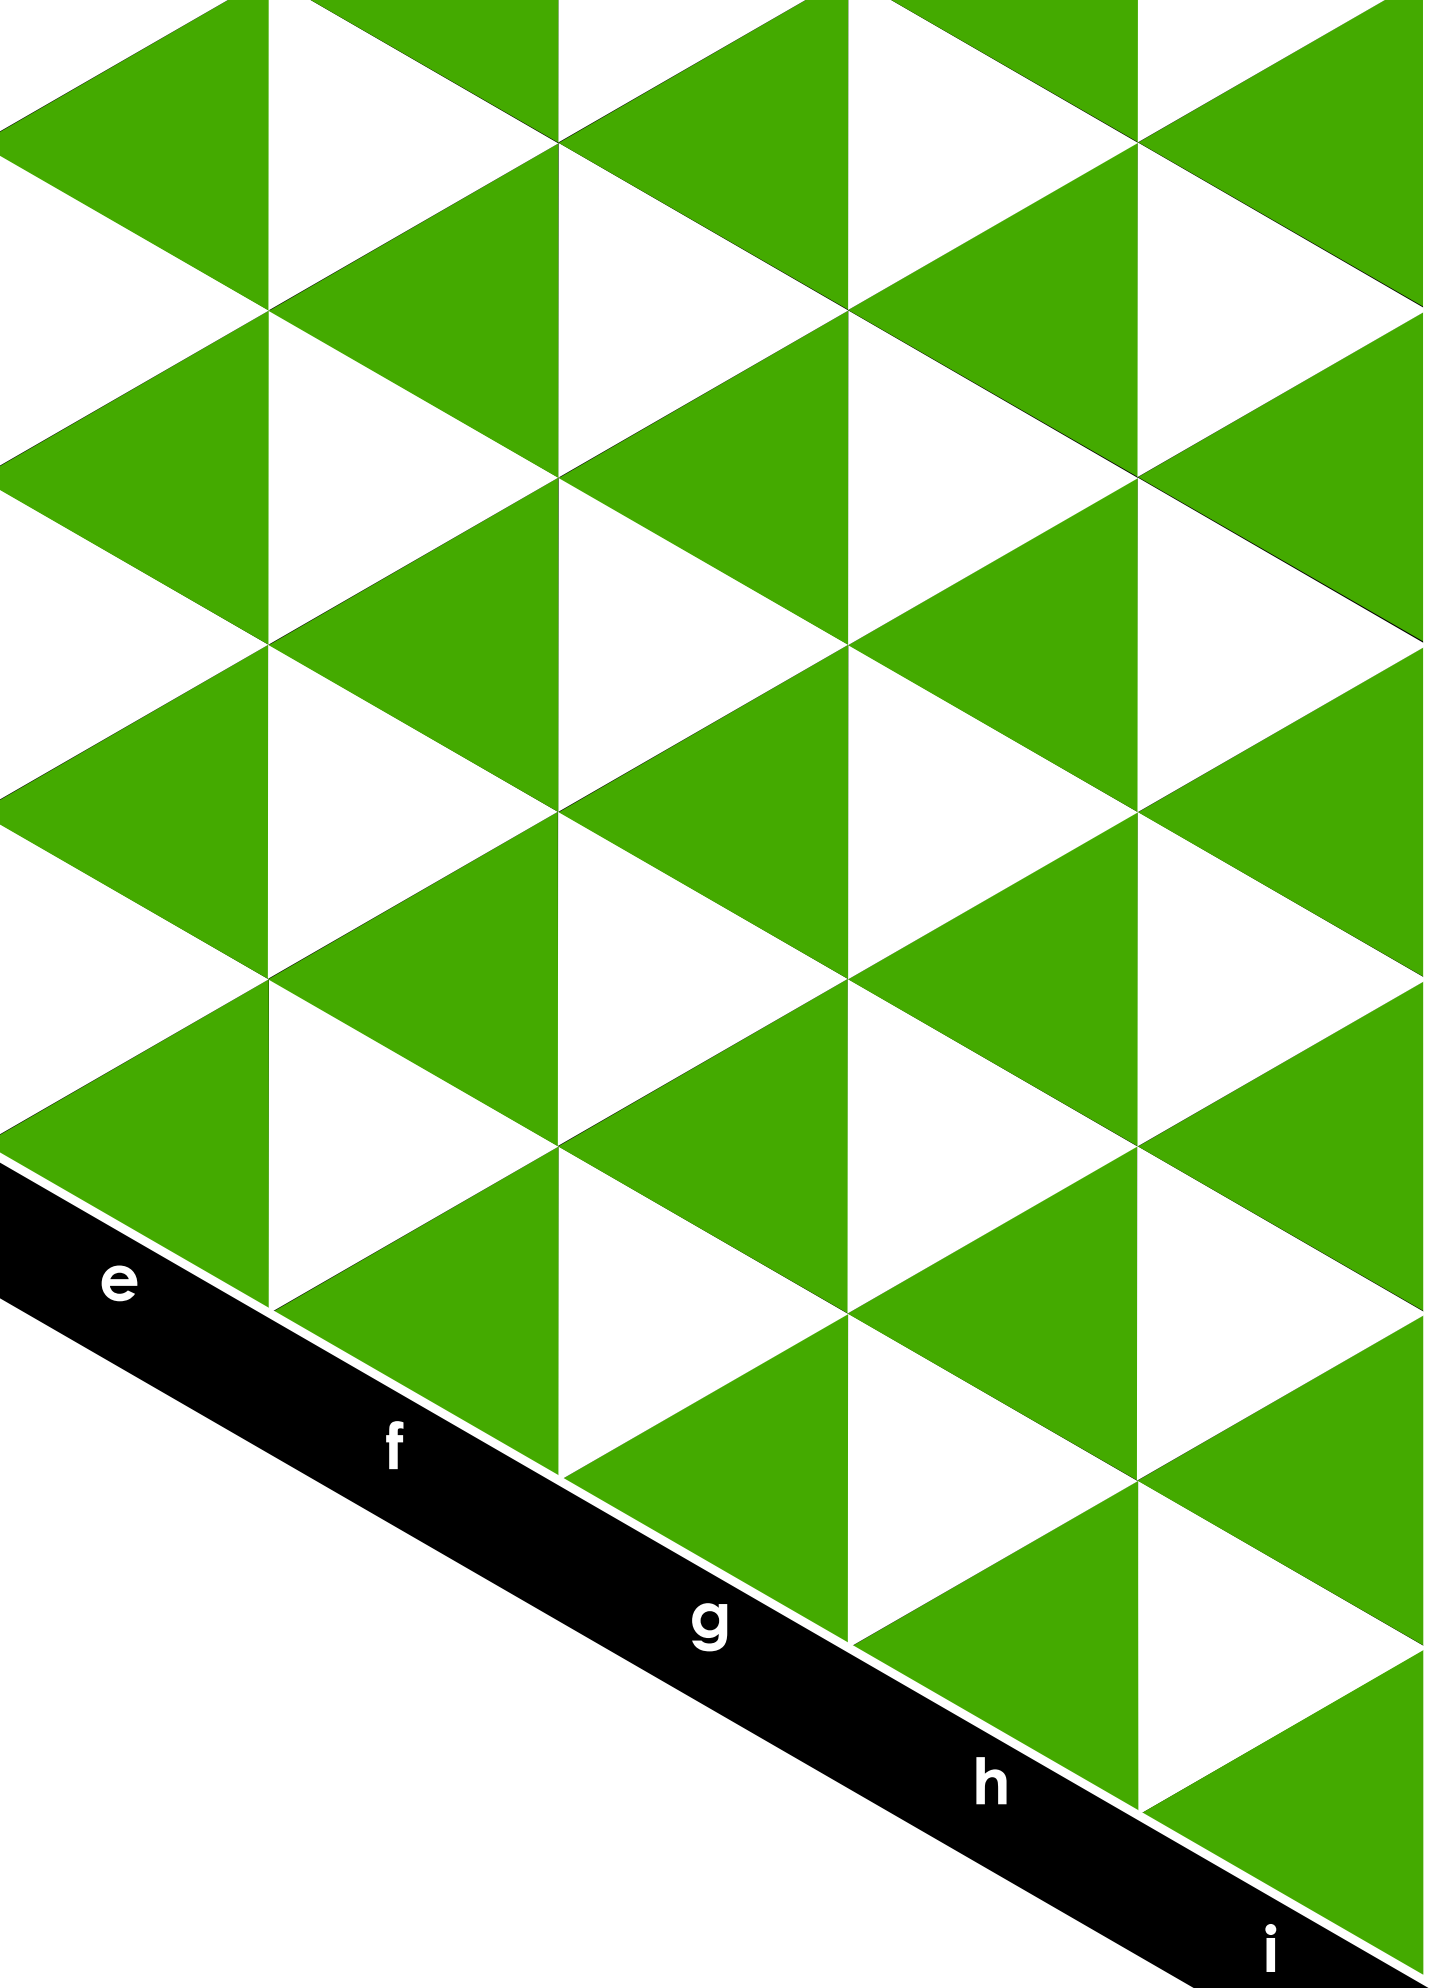

Instruction:

- Cut and glue together three board parts to make a regular triangle made of 81 smaller triangles. Glue it onto a piece of cardboard.
- Cut the included right orientated symbolic pieces and glue them onto a piece of cardboard. Then cut the left orientated pieces and glue them as the reverse opposites of their analogues.
- Use included black stripes to cover the board's corners in a smooth way.
- Use the Scotch tape to cover the board and pieces.
